

2.3.5 Create a New File

Your Performance

Your Score: 2 of 2 (100%)

Elapsed Time: 3 minutes 7 seconds

Pass Status: **Pass**

Required Score: 100%

Task Summary

Actions you were required to perform:

- ✓ Create the `/etc/pref_shell` file
- ✓ Add the lines to the file

Explanation

In this lab, your task is to:

- Open the vim editor with a new file named `/etc/pref_shell`.
- Add the following lines to the file:
SHELL=/bin/csh
export SHELL
- Save and close the file.

Complete this lab as follows:

1. At the prompt, type **vi /etc/pref_shell** and press **Enter** to open vim and create the file.
2. Press the **a** key to enter insert mode.
3. Type the following text:
SHELL=/bin/csh
export SHELL
4. Press the **Esc** key to exit insert mode.
5. Type **:** to enter command line mode.
6. Type **wq** and press **Enter** to save the file and exit.
