

8.7.11 Edit Quotas 2

Your Performance

Your Score: 2 of 2 (100%)

Elapsed Time: 1 minute 18 seconds

Pass Status: **Pass**

Required Score: 100%

Task Summary

Actions you were required to perform:

- ✓ Increase the block grace period to 30 days
- ✓ Increase the inode grace period to 30 days

Explanation

In this lab, your task is to:

Increase the block and file (inode) grace period for users from 7 to **30** days.
After you've finished, generate a quota report to confirm the changes.

Complete this lab as follows:

1. At the prompt, type **edquota -u -t** and press **Enter** to open the user soft quota grace period file.
 2. Press **1** and press **Enter** to open the editor.
 3. Move the cursor under Block grace period, delete the **7**.
 4. Type **30**.
 5. Move the cursor under Inode grace period, delete the **7**.
 6. Type **30**.
 7. Press **Ctrl + x** to exit the editor.
 8. Press the **Y** key to save your changes.
 9. Press **Enter**.
 10. Type **repquota -a** and press **Enter** to generate the report and confirm the changes.
