## Your Performance

Your Score: 2 of 2 (100%)

Elapsed Time: 1 minute 3 seconds

Pass Status: **Pass**

Required Score: 100%

## Task Summary

Actions you were required to perform:

- ✓ Rename the bcasini account to bcassini
- ✓ Change the home directory to /home/bcassini

## Explanation

In this lab, your task is to:

Change the user account name from bcasini to **bcassini**.Change the home directory to **/home/bcassini**.When you're finished, view the `/etc/passwd` file to verify the changes.

Complete this lab as follows:

### Procedure 1

1. At the prompt, type **su -** and press **Enter** to change to the root user.
2. Type **1worm4b8** as the root password and press **Enter**.
3. Type **usermod -l bcassini bcasini** and press **Enter** to change the account name.
4. Type **usermod -d /home/bcassini bcassini** and press **Enter** to change bcassini's home directory.
5. Use **cat /etc/passwd** and press **Enter** to verify the changes.

### Procedure 2

1. At the prompt in the wadams account, type **su -c "usermod -l bcassini -d /home/bcassini bcasini"** and press **Enter** to complete this task using a single command.
2. Type **1worm4b8** as the root password and press **Enter**.
